Mozaffar Hossain Spinning Mills Limited Notes to the Financial Statements For the period from 01 July, 2022 to 30 September, 2022

1.0 Legal Status of the Company

Mozaffar Hossain Spinning Mills Limited (herein after referred to as "MHSML" or "the Company") was incorporated with the Registrar of Joint Stock Companies and Firms (RJSCF) vide registration no. C-59784(1791)/05 dated November 29, 2005 as a private company Limited by shares namely Mozaffar Hossain Textile Mills Limited. Subsequently the company renamed as Mozaffar Hossain Spinning Mills Limited in December 14, 2011 and the company was emerged as a public limited company on the same date and year. In January 2014, Mozaffar Hossain Spinning Mills Limited listed its shares with both Dhaka and Chittagong Stock Exchanges.

Registered office of the company

The registered office and principal place of business of the company is situated at House # 315, Road # 04, DOHS Baridhara, Dhaka-1206, Bangladesh, and the manufacturing establishment is located at Thakurbari Tec, Masumabad, Bhulta, Rupgonj, Narayangonj.

2.0 Nature of Business Activities

Mozaffar Hossain Spinning Mills Limited runs the business of 100% export oriented cotton yarn manufacturing & selling mostly to woven fabrics manufacturer. As a backward linkage industry to support 100% export oriented RMG industry of Bangladesh. Products of the company are sold at domestic market as deemed exporter delivered to the export oriented companies.

3.0 Risk Exposure

3.1 Interest Rate Risk

MHSML is exposed to the volatility of interest rate as it has long-term Bank Loan. Any higher trend in interest rate in the future will definitely aggravate the adversity.

Management perception:

The management of MHSML has decided to pay off the outstanding Bank Loan gradually to make the Gearing Ratio at a satisfactory level which is expected to reduce the financial leverage and interest burden significantly.

3.2 Exchange Rate Risk

MHSML is engaged in global trade as it procures its raw materials from overseas markets. Therefore, fluctuations in the related foreign currency rates may affect adversely to the company's liquidity and profitability and expose a threat to the stability of the Company.

Management Perception:

MHSML settles its foreign transaction through US Dollars in case of both export and import. While the value of functional currency fluctuates, the loss or gain on currency fluctuation for export automatically sets off against the loss or gain on currency fluctuation for import. As the value of export is always greater than the value of import, some balance is created in the foreign currency transaction. Furthermore, the Company is contemplating about setting a system of hedging on foreign currency transactions in the future. Movement in the exchange rate adversely may expose the company to risks of foreign currency loss.

3.3 Industry Risks

(a) Market demand:

The products of MHSML are sold to the export oriented fabrics and garments manufacturer, The ultimate buyer are from abroad. Any economic recession, changes in tastes and fashions of the consumers, national income and other related factors may cause to decline the market demand of the company products.

Management Perception:

MHSML always gives values to its customers' satisfaction and changes in tastes and fashion. Therefore, its expert team promptly dedicates their creativity and research work to respond any changes in customer's demand and product diversifications.

(b) Competition:

MHSML is operating in a free market economy regime. The company might have to face stiff competition from its competitors:

Management Perception:

Bangladesh is the prime source of cheapest garments in the world, earning comparative advantages for its industries over their global competitors. In addition, the management of MHSML employs their efficiencies; expertise and discretions to minimize the cost of its products.

(c) Rising of Raw Materials costs:

The cost of raw cotton and other material are highly volatile and can take movement in any direction. Increasing trend in the raw material cost may hamper the profitability of the company to a greater extent.

Management Perception:

MHSML is aware of the continuing market situation of its raw materials. The management of MHSML believes that long term planning for raw material management, exploring number of global markets, job wise costing for its finished products and trustworthy relations with the suppliers and mitigate the risk of rising of materials cost.

3.4 Risks steaming from technological changes:

Changes in technologies may reduce the cost efficiency of the company.

Management perception:

MHSML had gone for huge BMRE to support the technological changes. The machineries and equipment of the new unit are the latest invention in the sector which is imported from renowned manufacturers of the world.

3.5 Other risk factors:

(a) Political Unrest:

Bangladesh is prone to serious unrest in the political condition embraced by Hartal, Road-Block and many other politicized barriers to the business. Due to these factors it would stem the cost of the product upwards.

Management Perception:

During the last forty-seven years of post independence period, Bangladesh has gone through a variety of political situations. However, presently, a sound political atmosphere is prevailing in the country. Both the ruling and opposition parties are committed to the betterment of the country. Last democratic national assembly election and local council polls are instances of peaceful political situation in Bangladesh.

(b) Possible slowdown in economic growth in Bangladesh:

Our performance and growth are dependent on the sound health of the Bangladesh economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, commodity and energy prices and various other factors. Any significant change may adversely affect our business and economy significantly.

Management Perception:

Bangladesh economy is booming for last few years. Consistent industrial growth along with increased agricultural production has made the Per Capita Income higher than that of recent years. In addition, favorable government policies and industry friendly policies by other regulatory bodies have proved to be congenial to the economy of the country.

(c) Natural calamities:

Bangladesh is a country where recurrent natural calamities take place every year. It is a serious threat to the business.

Management perception:

This type of situation is totally beyond the control of human being. Though the management of MHSML has a very little to do with, we can and should have some precaution measures to minimize the damage of the business in such situations.

4.0 Basis of preparation and significant accounting policies

4.1 Basis of Measurement of Elements of Financial Position

The financial statements have been prepared on the Historical Cost convention basis and therefore, do not take into consideration the effect of inflation except that arising from revaluation of lands and land developments and buildings, as specified in Note 4.10. 4.11 Cash and Cash Equivalent and Statement of Cash Flows:

Cash and cash equivalents comprise cash in-hand and in current account that are readily convertible to a known amount of cash, and that are not subject to significant risk of change in value.

The Statement of Cash Flows is prepared using the **Direct Method** as stipulated in Bangladesh Accounting Standards (IAS)-7 "Statement of Cash Flows"

4.12 Earnings per Share

The company calculates Earnings per Share (EPS) in accordance with the requirement of IAS-33: "Earning per Share", which has been shown on the face of the Statement of Comprehensive Income.

Basic earnings:

This represents earnings for the period ended 30 September 2022 attributable to the ordinary shareholders.

Basic earnings per share:

This has been calculated by dividing the basic earning by the number of ordinary shares outstanding for the period.

Weighted average number of ordinary shares outstanding during the year:

The basis of computation of number of shares is in line with the provision of IAS-33: Earnings per Share. Therefore, the total number of shares outstanding at the end of the year multiplied by a time weighting factor which is the number of days the specific shares were outstanding as a proportion of total number of days in the year.

Diluted Earnings Per Share:

Diluted EPS is calculated if there is any commitment for issuance of equity shares in foreseeable future, i.e., potential shares, without inflow of resources to the Company against such issue. This is in compliance with the requirement of IAS-33. As the company has no dilutive potential ordinary shares, so diluted earnings per shares was not calculated.

4.13 Foreign Currency Transactions

Foreign currency transactions are recorded, on initial recognition in the functional currency at the spot exchange rate ruling at the transaction date.

At the end of each reporting period, in compliance with the provision of IAS-21: "The Effects of Changes in Foreign Exchange Rates" are determined as under:

- (a) Foreign currency monetary items are translated using the closing rate.
- (b) Non-monetary items that are measured in terms of historical costs in a foreign currency are translated using the exchange rate at the date of the transaction.
- (c) Non-monetary items that are measured at fair value in a foreign currency is translated using the exchange rate at the date when the fair value is determined.

4.14 Impairment of Assets

All assets, except inventory, arising from construction contracts and financial assets is assessed at the end of each reporting year to determine whether there is any indication that an asset may be impaired. If any such indication exists, the company assesses the recoverable amount.

And only if, the recoverable amount of an asset is less than its carrying amount, the carrying amount of the assets is reduced to its recoverable amount. The reduction is an impairment loss.

An impairment loss is recognized immediately in statement of Comprehensive Income, unless the asset is carried at revalued amount in accordance with another standard. Any impairment loss of a revalued asset is treated as a revaluation decrease. No such assets have been impaired during the year under audit and for this reason no provision has been made for impairment of assets.

4.15 Borrowing Cost

Borrowing costs are interest and other costs that an entity incurs in connection with the borrowing of fund and are recognized as an expense in the year in which it incurs.

4.16 Authorization date for issuing Financial Statements

Board of Directors authorized the financial statements for issue on November 14, 2022.

4.17 Reporting Currency

The financial statements are prepared and presented in Bangladesh Currency (Taka), which is the company's functional currency.

4.18 Risk and uncertainty for use of estimates (Provisions):

The Preparation of Financial Statements in conformity with International Accounting Standards (IAS) requires management to make estimates and assumptions that affect the reported amounts of revenue and expenses, assets and liabilities and disclosure requirements for contingent assets and liabilities during and the date of the financial statements. Due to inherent uncertainty involved in making estimates, actual result reported could differ from those estimates.

In accordance with the guidelines in IAS-37: "Provisions, Contingent Liabilities and Contingent Assets", provisions are recognized in the following situations: -

- When the company has an obligation as a result of past events;
- When it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- Reliable estimate can be made of the amount of the operation.

4.19 Accruals & Deferrals

Deferrals and accruals have been made as per the guidance in IAS-1 Presentation of Financial Statements. In order to meet their objectives, Financial Statements, except for cash flow statement and related information, are prepared on accrual basis of accounting. Under the basis, the effects of transactions and other events are recognized when they occur (and not

when cash or its equivalent is received or paid) and they are recorded in the accounting records and reported in the Financial Statements of the years to which they relate.

Other Payables are not interest bearing and are stated at their nominal value. **4.20 Advances, Deposits and Prepayments**

Advances are initially measured at cost. After initial recognition advances are carried at cost less deductions or adjustments. Deposits are measured at payment value. Prepayments are initially measured at cost. After initial recognition prepayments are carried at cost less charges to the statement of comprehensive income.

4.21 Financial Instruments

Non-derivative financial instruments comprise accounts and other receivables, cash and cash equivalents, borrowings and other payables and are shown at transaction cost.

Initial recognition

An entity recognizes a financial assets or liabilities in its statement of financial position when, and only when, the entity becomes a party to the contractual provision of the instrument and subsequently recognized at their Amortized Cost.

Bills receivable are recognized at cost or net realizable value from the ordinary course of sales in the market whichever is lower. Bills receivables from foreign currency transactions are recognized into Bangladeshi Taka using exchange rates prevailing on the closing date of the accounts in accordance with IAS-21: The Effects of Changes in Foreign Exchange Rates.
